China

Beijing June 6, 2006

Dear Stuart,

With the current expansion of Priority Privilege in Beijing and China we felt its time to acknowledge the important and valuable contribution of your current management team in Beijing.

It has been a pleasure working with Wesley Stonehouse and Janet Connolly over the past year. Their commitment and dedication to the program has seen our 2006 sales results increase to over 5000 members and a 115% increase over last year. They are looking at doubling that within the next 12 months to 10,000 members now with our third office in Beijing. As a result our food and beverage revenues have continued to increase monthly. We are pleased with the current performance of our Priority Privilege program at all levels.

The program is an essential part of our hotel operation as it generates incremental revenue throughout our entire 8 participating hotels through all departments. The success of this program is down to Wesley and Janet's hard work and efforts to boost the sales in our three offices. We look forward to our continued beneficial relationship with HMC and look forward to a long and prosperous relationship in the years to come.

Yours sincerely,
