

TO WHO MAY CONCERN

This is to express that we have been associated with the loyalty and discounts program Hilton Gold, operated by Hospitality Marketing Concepts ( HMC ), for more than ten years in a satisfactory way.

The fact of participating in such program contributed positively in the different aspects of our business: represents actually an important volume of 2,500 room nights sold and, in addition, the revenues generated by the services at our restaurants of approximately 2,600 covers corresponding to members and his guests for the year 2004. In addition, we obtain other revenues generated by the membership cards selling.

We can state that the revenues received by the concept of our alliance with HMC represent, without any doubt, a significant achievement in the very difficult marked conditions we are actually facing.

Without any further reference, we are at your entire disposal to offer any additional information about the program in reference at our facilities and about the benefits that we have been received from the same.

Sincerely Yours

José Muñoz

General Manager
